

## Export Listing

### Progressive Insurance Miami International Boat Show

Return via fax 866-542-8673 or email [vberryman@nmma.org](mailto:vberryman@nmma.org) by 12/30/16

## Why Export?

Did you know that over 95% of the world’s consumers are located outside of the United States? Or that companies that export are more profitable, pay higher wages and are better able to navigate seasonal and economic downturns? Can your business profit by expanding your customer base overseas? US manufactured boats, accessories and related products are desired all over the globe.

For the 5<sup>th</sup> consecutive year, the Progressive<sup>®</sup> Insurance Miami International Boat Show<sup>®</sup> is proactively working to bring international customers from countries around the world to connect with U.S. companies looking for new sales opportunities overseas.

Almost 25% of all visitors to the Miami show are from overseas; including Brazil, Canada, Mexico, China, Argentina, the Bahamas and France. Recruitment of **qualified** business-to-business buyers is currently underway around the globe – **bringing these buyers right to your doorstep!**

If you are an exporter (new or experienced), we’d like to identify you as such in our show directory. By doing so, all international buyers to our show can easily locate you, as an export friendly company.
